

## #NoChildCold campaign

### New fundraising campaign to keep children warm this winter

The new #NoChildCold partnership campaign is to make sure children living in the Bradford district don't go cold this winter.

During lockdown, thousands of children are at home who would normally be at school and this has had an impact on heating costs for their parents. Lots of families in the Bradford district are struggling to pay the bills to heat their homes while their children are learning. It is estimated that approximately 21,000 children living in the district are affected by fuel poverty.

**A new short-term fund is appealing for donations and has raised £6,810.95 in the first few days of the campaign. If you would like to [make a donation, you can do so online on the Virgin Money Giving Page](#) and also find out more about the campaign.**

So let's get involved - we are asking everyone to spread the word, support on social media using #NoChildCold and help as much as you can. Attached are some social media graphics for you to use.

If any of your patients are struggling with fuel poverty they can access this support service by speaking to their local advice centre, or a food bank if they receive food parcel support. Below is a list of local welfare advice providers and food banks.
